

Screening solutions for Hold Baggage

CTX 9400DSi™

Designed to integrate with all Baggage handling systems, the CTX 9400 DSI™ system is TSA Certified and help customers operating in fast-paced airport environments.

- Sole 1-m wide conveyor throughout scanner improving the operational throughput.
- Single Computer platform improving reliability and easing Software upgrades
- Superior diagnostic tools for increasing operational uptime
- Extended Ethernet BHS interface providing better operation supervision

Checkpoint Security

Entry Scan® 4

GE Security's high-sensitivity, high-throughput "puffer machine," can detect a broad range of explosives in seconds. Using patented technology, the portal can identify even the most challenging substances.

This compact model fits into rooms with 2.44m ceilings without sacrificing any walk-through space.

Engineered to dramatically reduce maintenance time, it features a quick-access panel that puts key system components within easy reach.

Mobile Trace™

GE Security's newest handheld detector for Narcotics and Explosives

- First handheld to offer simultaneous dual-mode detection
- Ease of use: icon-based, 3.5 inch touch screen display
- Ergonomic design with shoulder strap
- Four hour battery with plug-in fast charger or power cord
- Easy access to components for simple maintenance

Streetlab® Mobile

The first ruggedized 2-1 Chemical and Biological identification unit based on Raman Spectroscopy.

- Unknown substances and liquids are identified in a single "point to shoot" operation
- Through a wireless connection the SL Mobile can operated remotely

Registered Traveler Kiosk

An Integrated Multi sensor screening kiosk for registered travelers

- Dual Mode biometric ID verification: Iris & Fingerprint
- A 3-layer supplemental security screening
 - Quadrupole resonance for explosives detection in shoes
 - Detection for weapons and metal
 - ITMS finger scan for trace explosive residue detection

Core Security Intrusion and access control, video surveillance and fire detection

DirecDoor Controller

The industry's only 2-reader and 2-door Power over Ethernet (PoE) IP-connected access controller. DirecDoor integrates with GE's Facility Commander™ Wnx, Secure Perfect™ and Picture Perfect™ access control and integrated security management software and is located at the secure side of the door.

- Intelligence at the edge of the network
- PoE and local power supply support for controller and locks
- Fire panel alarm connection
- Lower total cost of ownership in low density door environment

VisioWave™ IVP - Discovery 2405

The Discovery 2405 is the first member in the new VisioWave™ IVP (Intelligent Video Platform) family of digital video recorders that combine both digital video encoding and local storage based upon a new hardware platform using "Codec Independent" encoding boards.

- Improved video quality and efficient bandwidth usage
- MPEG4-AVC (H.264) compression standard with temporal scalability
- Up to 24 independent configurable video ports, all ports simultaneously support 25/30 FPS (full)
- Internal (up to 8 onboard RAID) or external storage.
- Simultaneous video content analysis on all ports
- Open platform for 3rd party applications

Facility Commander™ Wnx

Facility Commander™ Wnx for Windows® is an expandable and open end-to-end security management solution integrating and unifying mission-critical physical security applications.

Access control, video surveillance, alarm monitoring, intrusion detection, and photo ID all on one security management platform without the need for middleware.

- Alarm management with graphics command & control
- Digital video surveillance
- Photo identification and credentialing
- API extends feature-rich functionality

EST3® Fire Control Panel

The EST3® Control Panel leads the life safety industry thanks to innovations like its lightning fast 3 second response time, exceptionally survivable peer-to-peer network, eight channel digital audio, and more.

- Supports Signature Series multisensor analog detectors
- Alarm response in under three seconds
- Supports 250 devices per loop, 2,500 devices per node
- Uses existing wiring for most retrofit applications
- Intuitive user interface for powerful control and display

Picture Perfect™ v4

The only UNIX platform for Integrated Security Management and Access Control. Robust and scalable, Picture Perfect can easily handle high transaction volumes, complex data and real-time interactivity required for enterprise security operations.

- Web-deployable Java thin client
- Easy to upgrade, no interruption of service
- ODBC and JDBC connectivity for enterprise-wide data sharing
- Modular and scalable for a single facility or thousands of locations worldwide
- Powerful enough to support more than 10,000 doors worldwide

System of Systems

The "System of Systems" combines GE's certified technologies of CT and XRD in an automatic explosives detection system

- Localized XRD scanning of defined threat region(s)
- Single digit false alarm rate
- Minimizes the number of bags that require reconciliation
- Reduces the utilization of operators significantly
- Field-proven technology, FAA certified

Security and Life Safety

- CCTV & Digital Video Surveillance
- Intrusion & Access Control
- Fire Detection

Checked Baggage Screening with CT Technology

- CTX 9000 DSi™ Explosives Detection System
- CTX 5500 DS™ Explosives Detection System

Passenger Checkpoint Screening

- EntryScan®, Itemiser®, and MobileTrace Explosives and Narcotics Detection Equipment

Water System

- Water Re-use System
- Drinkable Water System
- Cooling/Boiler/Air Conditioner Water System

Control System in Baggage System

- PLC (Programmable Logic Controller)
- HMI/SCADA

• PLC (Programmable Logic Controller)

• HMI/SCADA

Registered Travelers

- Explosives and Narcotics Detection
- CCTV & Digital Video Surveillance
- Secure Registered Traveler Kiosk
- Bio Identification System
- People Identification Smart Card System

Electrical Distribution Equipment

- MV/LV Switchgear
- Busway
- UPS
- Relay Protection

Emergency Genset

- Jenbacher NL fired Mobile Genset, Rental/Sales
- Mobile Diesel Genset

Power Station

- GE Aero Energy 18-100MW GTGs, Sales

Lighting System

- Indoors Lighting, Outdoor Lighting, Road Lighting, High Master Lighting,
